

Product Dispatch Availability

Variety:		Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	Week 8	Week 9	Week 10	Week 11	Week 12
<b>Dunstan</b> , There is not a lot of this available. It eats well but does not store well.	2002-3												
	2003-4												
	2004-5												
<b>Sundrop</b> , There is a lot of this planted. It is a very bright colour which travels well.	2002-3												
	2003-4												
	2004-5												
<b>Clutha Sun</b> , This is part of the Clutha Series. See appendix 1 for details.	2002-3												
	2003-4												
	2004-5												
<b>Mascot</b> , Similar to Dunstan, minimal volumes available	2002-3												
	2003-4												
	2004-5												
<b>Clutha Gold</b> , Very popular and planted extensively. Eats very well and travels very well	2002-3												
	2003-4												
	2004-5												
<b>Clutha Gem</b> , minimal availability.	2002-3												
	2003-4												
	2004-5												
<b>Vulcan</b> , Very good when you can get it. Issues with polination.	2002-3												
	2003-4												
	2004-5												
<b>Clutha Fire</b> , minimal availability.	2002-3												
	2003-4												
	2004-5												
<b>Clutha Star</b> , A little rougher than clutha gold but still very good.	2002-3												
	2003-4												
	2004-5												
<b>Alex</b> , minimal availability, sizes very well	2002-3												
	2003-4												
	2004-5												
<b>Southern Cross</b> , relatively new and has been received well in market. Late.	2002-3												
	2003-4												
	2004-5												
<b>Nevis 168/Genevieve</b> , Exclusive to Le Fresh. Very very good and very late.	2002-3												
	2003-4												
	2004-5
